INTRODUCTION

DIESSE Diagnostica Senese SpA is an Italian manufacturer of innovative in vitro diagnostics systems. DIESSE was founded in 1980, DIESSE has focused its efforts on developing a solid position in the IVD market segments of hematology, seroimmunology and bacteriology.

A mainstay of DIESSE strategy is the in-house production of most of the basic biologic components of the diagnostic kits (polyclonal and monoclonal antibodies, native and recombinant antigens), along with the capacity of designing instruments and dedicated plastic devices in order to develop close automated systems.
