Corporate Social Responsibility

DIESSE Diagnostica Senese S.p.A. (DIESSE) is committed to conducting, executing, and monitoring its activities in an ethical, socially responsible and transparent way to safeguard the respect and preservation of the environment, as well as cultural and social heritage, in order to protect this generation and those to come.

The principles that DIESSE intends to follow are described in the Corporate Social Responsibility policy and are in agreement with its Code of Ethics and its Organization, Management and Control Model (in compliance with the Italian Legislative Decree n. 231/2001, Italian law on crime-risk prevention within business activities).

DIESSE wants to express the precise intention to inspire its behaviors, not only to respect laws and regulations, but also to respect moral principles, which regulate all the aspects of civil coexistence, all relationships between individuals, private and public companies, and institutions.

The goals that DIESSE, with this policy, aims to achieve are taken from the 17 United Nation Sustainable Development Goals.

In particular, DIESSE focuses its interest on five goals:

This new culture and civic sense responsibility will be integrated into the Quality Management System, with the aim of monitoring all the company processes by promoting continuous improvement.

It is on this foundation that DIESSE builds and develops its strategies and competitiveness on the market.
