**PRODUCT:
CODE:**

**CHORUS MYCOPLASMA PNEUMONIAE IgG
81034**

INTENDED PURPOSE:

CHORUS Mycoplasma pneumoniae IgG (REF 81034) is an immunoassay kit for the automated semi-quantitative determination of IgG antibodies against Mycoplasma pneumoniae.

Mycoplasma Pneumoniae is the most common etiological agent causing pneumonia acquired in community environments. The IgG appear after the IgM and IgA and they generally reach the peak level during the 5^o week, therefore the kit is used as an aid in the diagnosis of pneumonia infection.

The test, performed in human serum using a disposable device applied to the CHORUS and CHORUS TRIO instruments, must be used by professional laboratory personnel only.
